STANDARD BUSH ROSES

No. 1 Two-Year-Old Field Grown

50c each; \$5.50 doz., postpaid

BICOLOR

AUTUMN. (H. T.) A distinct color of intense richness. This rose incorporates shades of burnt orange suffused with russet-brown and bronzy red all overlaid on a background of rich yellow. A color combination reminiscent of the most glorious autumnal foliage.

CONDESSA DE SASTAGO. (H. T.) You will admire the brilliant colors of this new double rose from sunny Spain. The bud is like a ball of gold with red stripes. Fully open it is fiery copper and rich gold. It likes heat, doing its best in midsummer.

GAJETTY. (H. T.) A very lovely, symmetrical, medium sized flower of orange, Indian red, and silver. Large, long pointed bud. A most handsome and vigorous plant. Continuous bloomer. Fragrant.

PRES. H. HOOVER. (H. T.) A wonderful multi-colored rose, charmingly combining many shades of cerise-pink, flame, scarlet, and yellow. The buds, borne upright on strong stems, are long and pointed, and possessing a most exquisite fragrance.

TALISMAN. (H. T.) A vividly colored rose of an unusual combination of gold, apricot, pink and carmine in mingled splashes, streaks and blends. Flowers fairly double, borne on long stems.

PINK

BETTY UPRICHARD. (H. T.) A free blooming, tall growing plant, producing quantities of semi-double flowers of which the inner surface of the petals is a delicate salmon-pink and the outside a deep and glowing coppery carmine suffused orange.

DAME EDITH HELEN. (H. T.) This variety has wonderful pointed buds which open very slowly to large, full, perfectly formed blooms which hold their color with age and are carried on rigid, erect stems. The color is an even shade of pure, glowing rose-pink.

LOS ANGELES. (H. T.) An ideal American garden rose; one of the finest varieties ever introduced. The long stemmed fragrant flowers are of a brilliant flame-pink shading to coral and gold at the base of the petals. Ideal for cutting. Buds long and pointed.

MRS. HENRY MORSE. (H. T.) Two-tone pink. The buds are perfect in form; long, very artistically formed; of a rich carmine-pink, and open to a high-pointed two-toned pink flower of great beauty. Fine tea fragrance.

SUSAN LOUISE. (H. T.) A lovely clear pink bush rose that is semi-double and produced in profusion on healthy, vigorous plants. The very long buds are slightly darker than those of Belle of Portugal and are borne continuously throughout the summer.

WHITE

FRAU KARL DRUSCHKI. (H. P.) The most popular everblooming white rose. Outer petals of immense buds occasionally tinged with pink; open blooms pure snow-white, large and moderately full.

McGREY'S IVORY. (H. T.) The size and perfection of form of this wonderful rose are almost unbelievable. The buds are long and pointed, staying at this stage for several days, and opening to perfectly formed flowers of creamy ivory-white.

MME. JULES BOUCHE. (H. T.) Nicely formed white buds which open to medium sized flowers showing a slight blush in the center as the bloom opens. An old but popular variety. Fragrant.

TWELVE SELECTED

One Each Variety for \$12.50 VALUE \$15.00

COUNTLESS VANDAL. (H. T.) Plant Patent No. 38. The Rose of Roses! "Countess" has been enthusiastically received by rose-lovers everywhere. Its long-pointed bud, distinctive shadings of coppery bronze, suffused with soft gold, and its form are a continuous "movie", developing new beauty at all times during its long life. A leading seller among Hybrid Tea Roses. **\$1.00 each.**

DOUBLOONS. Climber. Plant Patent No. 152. A hybrid of our native rose *Setigera*. Clusters of very large cup-formed, saffron yellow blooms, opening one after the other, prolonging their blooming season. Has a tendency to repeat in midsummer. **\$1.50 each.**

ECLIPSE. (H. T.) Plant Patent No. 172. The international sensation of the year, awarded prizes in Rome, Paris, and other test-gardens. Its long, stream-lined bud, enhanced by ornamental sepals, is of rich gold without shading. Petals are large and tough, but not numerous, averaging 20 to 25, with more in the autumn. The name "Eclipse" came about because the seedling bloomed for the first time on the day of the total eclipse, Aug. 1932. **\$1.25 each.**

ETERNAL YOUTH. (Aicardi 1937.) Patent rights reserved. New. The perfectly formed buds are long pointed, colored a beautiful soft pink with yellow at the base of each petal. Half open the flowers retain their high center and their rich pink color. The full open flowers are comfortably double and expose a large center of graceful deep yellow stamens. The color remains a clear pink throughout suffused with just a touch of salmon. The growth is vigorous. The foliage is abundant and there are always some flowers available. We consider this the long desired pink rose. Available spring only. **\$1.50 each.**

GLOAMING. (H. T.) Plant Patent No. 137. A cut-flower variety which has proved a "winner" wherever grown. Its large buds, carried on long, rigid stems, are amply clothed with handsome foliage. The bloom is of unusual coloring—fawn-orange in the bud, and the large, full blooms are of a peculiar pink overlaid with salmon. The plant is vigorous and branching. **\$1.00 each.**

Talisman

Duquesa de Penaranda

RED

CATALONIA. (H. T.) A startling new color in roses, being a combination of velvety orange-scarlet, vermilion and cochineal red. Open blooms fully double. Bush of robust, rather spreading growth and almost continuously in bloom. A great rose to provide vivid coloring in the garden.

E. G. HILL. (H. T.) This is the most unfading of all red roses. Immense, double flowers of dazzling scarlet shading to a deeper red as they develop; are deliciously fragrant and long lasting when cut. Blooms are produced singly on long vigorous stems.

ETOILE DE HOLLANDE. (H. T.) The finest dark red rose for general purposes. Ranked among the first three of its color by everyone who knows roses. The beautiful, oval buds are perfect, of medium size, and open into magnificent brilliant red blooms.

GRENOBLE. (H. T.) A majestic new rose of glowing scarlet-red. The lovely buds on long stems, are crimson but the open flower is brilliant red, almost scarlet, and a bed of Grenoble stands out like fire. Fully double and large. Tall growing and very vigorous.

HADLEY. (H. T.) An old favorite which everybody knows. Flowers rich crimson with velvety texture, of good shape, size, and substance. Very sweet scented. Long stems and mildew proof foliage.

RED RADIANCE. (H. T.) Similar to Radiance except in color. A rich, clear cerise-red. Large, full and well formed. No rose will excel in fragrance, growth or quantity of blooms. A fine variety.

PATENTED ROSES

MARY HART. Plant Patent No. 8. A striking red sport of Talisman. The bud is maroon-red, opening to well-formed blooms of deep velvety blood-red with an overflow of amber. Unlike most red roses, Mary Hart does not wilt or dry out when cut but opens perfectly. **\$1.00 each.**

MATADOR. (H. T.) Plant Patent No. 170. In the European shows it was hailed as a great red rose, and our tests have confirmed the opinion. Large, full, well-formed, scarlet-crimson blooms with darker silky sheen on the reverse; very fragrant. **\$1.00 each.**

McGREY'S SUNSET. (McGredy 1937) Patent rights reserved. New. Outside of petals is a clear buttercup yellow, tipped orange, while the inside is chrome yellow, flushed with scarlet as it opens. Color is intensified as blooms expand and is at its best when fully open. Flowers are of medium size, full and shapely with a pleasing fragrance, very freely borne on strong upright stems. Very sun resistant. An outstanding rose. Certificate of Merit, N. R. S. 1936. **\$1.50 each.**

REX ANDERSON. (H. T.) Patent right reserved. Long-pointed buds at first ivory but the general tonality of the open rose is cream-white. The large blooms are well formed, with open center and generally come in clusters on strong, upright stems; delicately fragrant. The plant is vigorous, branching, and is amply clothed with handsome leathery foliage, resistant to diseases. **\$1.50 each.**

ROME GLORY. Plant patent applied for. A cross of Dame Edith Helen and Sensation. Most robust and vigorous plant, much more winter-hardy than most Hybrid Teas, producing long stems bearing large, crimson-red buds opening into full, well-formed, fragrant, cerise-red blooms. **\$1.50 each.**

SATURNIA. (Aicardi 1933) Patent rights reserved. Flowers a brilliant cardinal red, reverse salmon-yellow and copper. Bud is long and pointed. The plant is vigorous and well furnished with glossy, deep green foliage. Blooms continuously. Governor's Gold Medal, Colle Oppie Rose Garden, Rome. **\$1.00 each.**

SIGNORA. Plant Patent No. 201. This rose from the land of sunshine and Chianti wine is a real masterpiece in both plant and bloom. Long bud of a warm burnt sienna, opening to a lighter hue toward mandarine. The plant is tall-growing with every bloom on a long stem. Foliage is handsome. **\$1.25 each.**

Mrs. P. S. duPont

Hadley

COPPER AND ORANGE

DUCHESS OF ATHOL. (H. T.) One of the most outstanding of the newer varieties. The full, double flowers on their heavy stems are a very rich shade of golden bronze flushed orange and old-rose, reminding one of a beautifully ripened peach. Exceedingly vigorous.

DUQUESA DE PENARANDA. (H. T.) Two distinctive qualities make this marvelous copper-apricot rose popular. A tall shapely plant with bright, glossy, disease-proof foliage carried throughout the season. Large, pointed buds which unfold to lovely open flowers.

HEINRICH WENDLAND. (H. T.) Large, very double flowers of reddish copper, with an orange flush over all, the backs of the petals being a rich orange. Flowers come singly on strong stems with shiny, leathery foliage. Of rich syrupy fragrance.

MME. EDOUARD HERRIOT. (H. T.) The Daily Mail Rose. The buds, which are long and pointed, are coral-red shaded yellow at base. The open flowers of medium size and semi-double are beautiful coral-red shaded with yellow and bright rosy scarlet.

MRS. SAM McGREY. (H. T.) For elegant, shapely buds, this beautiful rose cannot be surpassed. Large, long pointed buds are produced singly on strong, slender stems. The color is a glowing combination of red, copper and orange, changing to warm pink suffused with gold as the flower ages. Vigorous, healthy plant.

QUEENSLAND BEAUTY. (H. T.) A majestic pink rose of sixty petals having good form in all stages of development. Bi-colored pink with gold base; petals deep rose-pink on the reverse, pearl-pink to silver-pink on the inside. An excellent robust bush. The fading flowers take on new beauty as the gold from the base and the deeper color on the reverse of the petals mirror through the whole flower.

Pres. H. Hoover

Mrs. Henry Morse

YELLOW

GOLDEN DAWN. (H. T.) An Australian rose of vigorous growth and continuous bloomer. The oval buds are rich straw-yellow, flushed old-rose, opening into splendid double, sweetly scented flowers of sunflower-yellow. Blooms are borne erect on strong stems.

JOANNA HILL. (H. T.) The exquisitely formed long buds are orange-yellow, extremely fragrant and the colors while not brilliant are dainty and lovely. The open blooms are somewhat lighter. The texture of the petals is not injured by the weather.

McGREY'S YELLOW. Large, bright buttercup yellow flowers, every bloom of which is perfect form and sweetly scented. The foliage is glossy and free of disease in most localities. One of the finest things about the variety is the fine bush, which is full of vigor and is continually sending up good stout, straight stems, each one surmounted by one of the beautiful buds. Stands heat well.

MRS. E. P. THOM. (H. T.) A most valuable yellow rose for the garden. Color is a clear, canary-yellow. Fine long buds open into fairly large, perfectly shaped flowers, on good stems. The plant is of exceptional vigor and blooms very freely.

MRS. P. S. DUPONT. (H. T.) The ace of the golden yellow everblooming roses. Winner of more gold medals for outdoor blooms than any other rose ever grown. Buds are small but exquisitely formed and of a reddish gold, opening into beautiful yellow flowers.

CLIMBING ROSES

50c each; \$5.50 doz., postpaid

GOLDEN EMBLEM. (H. T.) An extremely vigorous, rampant climber with enormous, heavy canes producing quantities of double golden yellow flowers similar to the bush variety.

HOOSIER BEAUTY. (H. T.) Beautiful long buds and flowers of a rich, dazzling crimson-scarlet. Long stemmed and fragrant, borne on a vigorous climber.

KITTY KINNINMONTH. (H. T.) Very large, semi-double flowers of glowing deep pink which come in worthwhile bursts of bloom.

CECILE BRUNNER. (P.) A vigorous climber which is very popular. A persistent bloomer, flowers perfectly double, exquisitely formed but tiny and borne in clusters. The color is a salmon-pink shading deeper toward the center. Dense handsome foliage.

PAUL'S SCARLET. The semi-double flowers are of good size and of a vivid scarlet-red color, fading but little. Freely produced in clusters on much branched canes. It is perfectly hardy.

TALISMAN. (H. T.) This is destined to be a most popular climbing rose. Flowers are the same wonderful color and lovely form as the bush variety. Exquisitely fragrant. A very free bloomer.
